

If you're like most people you understand that there is more. There is more to life, and more to your purpose on earth. We know you're not interested in being average. Enrichment through the arts is a creative learning environment where your student, is able to connect and identify with dedicated industry professionals. Vanessa specializes in teaching you how to win at life. She will help you find your vision, and fulfill your purpose. Participants will discover how to move away from distractions and defeat fear. Vanessa will motivate, inspire and educate your audience. Marvin's great sense of humor and ability to make everything fun and effortless will inspire your participants. Participants will learn to magnify their talents and be motivated to discover their passions, follow their dreams and never give up hope in their pursuits. These are very productive yet very rare opportunities for interaction and learning. There will be question and answer periods as well as performances and participation. Give your students a way to achieve big things and make a difference in their own personal enrichment and help them to aspire and achieve their goals. Together we will help you recognize, and find your purpose.

Testimonials:

"Class members, as well as faculty found the masters class riveting and extremely motivating. The question and answer time was extended to respect each students interest in their experience and knowledge. Marvin is a professional with emphasis on each individual student and their talent level as well as to the most proficient faculty. Vanessa captivated our senior vocal students with her vast scope of musical and vocal experiences. I can highly recommend Marvin Goldstein both as a professional entertainer and master class instructor as well as Vanessa Joy."

"While Marvin plays the piano and Vanessa sings the room is filled with laughter because the kids are enjoying their performance. They came with a great message, about achieving your dreams and that it is worth the time it takes to get there. They also emphasize how important getting an education is. One example of what they did, a student raised his hand and said that he was a pretty good singer, so Marvin invited him down to sing. It was a great opportunity for the child and they did a great job at encouraging him. They had great involvement. I think it would be a great experience for your students and would be worth the time and financial obligation to get them to perform in your school."
