Enrichment through the 
with
Marvin Goldstein & Vanessa Joy

Enrichment through the Arts is a creative and interactive program where students connect & identify with dedicated & accomplished professionals. They will learn about discovering their passions, developing their talents, and following their dreams with energy, enthusiasm and purpose in order to achieve their goals and help others.

The workshops include question and answer periods and individual personal interaction with Vanessa & Marvin.

Music speaks...

As young people transition from schools to careers, they will be putting their interests, passions, desires and dreams into action.

Enrichment through the Arts will help students identify and articulate those things that make them unique and special.

Marvin Goldstein & Vanessa Joy use music, a language with universal appeal, to engage the students. While music is central to their presentation, the message is applicable to all interests, passions and dreams.

Marvin & Vanessa inspire and motivate students to identify and explore the options available to them so they can turn their dreams into reality.

What Others Are Saying....

"Class members, as well as faculty found the masters class riveting and extremely motivating."

"The question and answer time had to be extended to respect each students interest in their experience and knowledge."

"While Marvin plays the piano and Vanessa sings the room is filled with laughter because the kids are enjoying their performance. They came with a great message, about achieving your dreams and that it is worth the time it takes to get there. They also emphasize how important getting an education is."

"They had great involvement. I think it would be a great experience for your students and would be worth the time and financial obligation to get them to perform in your school."

"Keep doing what you are doing because you are incredible. Thanks."

In conjunction with the educational Enrichment through the Arts workshops, Marvin & Vanessa are available for additional performances. They will often conduct the workshops during the week at schools and complete their visit to a community with a public concert or a speaking engagement to churches or clubs.
